

U N E – Unification for the New Era

ASHGRAM, Maria Rosa´s superior heavenly self being and Etheric Director of the Plan for Unification on Earth, has suggested the creation of the planetary network UNE. Charged with the Energy of Unity, Maria Rosa continuously addresses to us the need to work on our surrounding and retransmit all the knowledge and wisdom obtained so that others can do the same.

According to Ashgram, a very elevated energy field in charge of running all the work of the entire scheme that we were previously referring to, we must create a planetary network of values that will protect our next arrival to this planet.

The new root race is nothing but ourselves when we return to this planet. That is why we have to prepare the ground so that the continuation of our path -in whatever stage of the road we have gotten to in this life- is not too hard for us.

UNE HAS TO BE OUR VEHICULE OF UNIFICATION AMONGST THE CAOS AND CONFUSION THAT WE ARE ENTERING AND WILL CONTINUE ENTERING TO.

Only UNITY and the manifestation of our UNIVERSAL VALUES, can make us recognize our place in the Universe.

Only ONE HEART and ONE CONSCIENCE will be the key to open the door to heaven. Once we find it, heaven will go down to earth.

Maria Rosa continuously creates work groups that are educated under those Universal Principles with the intention that they can know how to transmit them to others. On the 26th of June 2010, the Energy of Unification was installed in this world, in Lerida, Cataluña, Spain.

The entire world Rose and Unified in that opportunity, to carry out this invitation for work, - creating a wave of unification for 24 hours. We were announced then, that in a posterior cycle ten years later -exactly the present time-, we were going to be given instructions to carry out the second part of that work.

We are the carriers and the New Avatar Group that has the Planetary Compromise to mentally create in order to materially manifest, this new race that is expecting and that we all carry inside, (that lies inside each of us waiting to be discovered).

THAT ROOT RACE IS OURSELVES IN THE FUTURE, THEREFORE, WHAT WE ARE PREPARING IS ACTUALLY THE ROAD TO OUR OWN EVOLUTION.

LET US NEVER FORGET THAT.

**OUR HEAVENLY SUPERIOR BEEINGS ARE
WAITING THAT THEIR HOLOGRAMS CAN MAKE
THE WORK IN THIS DIMENSION THAT THEY ARE
NOT ALLOWED TO MAKE DUE TO VIBRATION.**

TRANSITION CEREMONIALS FOR THE HUMANITARIAN AVATAR GROUP.

This second part continues the work taken place previously, in the year 2010 in Cataluña where the unification energy was installed. During this year, 2020, we are manifesting it.

Humanity's current global situation of conflict and confusion, and the planets situation attempting to balance itself, makes us realise the urge to start working in unity even in diversity.

THIS IS A JOB FOR HEAVEN AND EARTH. HEAVEN WILL WORK THROUGH THE SUPPORT THAT WE WILL CREATE ON EARTH. HUMAN VALUES WILL GAIN STRENGTH THROUGH THE HEAVENLY QUALITIES THAT WE WILL RECIEVE IN EACH OF THE CEREMONIALS; WHERE WE WILL RECIEVE THEM THROUGH THEIR SYMBOLS AND INSTRUCTIONS.

Recommendations to take into account during the ceremonials

- 1.- The work can take place individually or in groups.
- 2.- The time and date indicated must be respected.
- 3.- They will take place in a given day each month, according to instructions, this way, each of us, in the time and date that is possible, will add to this mass of light energy that we will be creating.
- 4.- It has to be carried out facing North.
- 5.- The clothes we wear must be preferably of light colours and with the most natural fabrics as possible.
- 6.- Cell phones and magnetic fields must be driven away from the work group in order to minimize interferences.

7.- Since there is no way to avoid interferences of Wifi Networks and other electro domestic devices, it is recommended that before we start with the meditations, we ask for help and connect to the following frequency:

FREQUENCY CODE

32HB57, 4th DIMENSION

So that our older brothers, which are ourselves in Superior levels, help us neutralize the distortions or interferences that may exist.

8.- Before we start with the work we must stay in an interiorization of approximately 10 minutes in our soul/heart.

9.- The symbol that belongs to each meditation is at the same time, the symbol that corresponds to each Value that we will be working in.

10.- This symbol has a colour, a frequency and a Human Value that proceeds from the Universal Values and their Principles. We must enter all of this information into our hearts.

11.- Once the symbol is introduced into our hearts, we shall visualize the Universal Frequency that belongs with that symbol. This will activate its power.

12.- We shall expand the emotion of that Value first in our body, then in our magnetic field and later in our surrounding and in all of the Planet and all of Humanity.

13.- We can stay in that sensation for as long as we want.

14- This work will take place from February to November and during each month can be repeated as many times as each person feels the need to, and will always remain added to this Universal Frequency.
